Forecast for Saturday 10 Sep 2022

Weather: A cloudy start with any drizzle in the east of the National Park at first, soon dying out. Then a dry day and becoming brighter during the morning with sunny spells by the afternoon.

Chance of cloud-free hill tops above 800m: 30% improving 80% by afternoon.

Low cloud and visibility: Still some misty conditions at first with extensive fog above about 700m. Good visibility over the south and west of the National Park extending to most areas during the morning with clouds lifting and breaking up. Much improved conditions in the afternoon and evening with very good visibility and patchy cloud cover on the tops.

Meteorologist's View

An improving day for getting into the hills across the Lake District. By the afternoon, visibility will be very good and winds will become lighter on the tops.

Forecast for Sunday 11 Sep 2022

Weather: Dry, bright for much of the day with some sunshine. Becoming cloudy later in the afternoon with heavy rain extending across the National Park during the evening.

Maximum wind: Strengthening southerly winds, average speeds of 15mph increasing 25mph gusts 40mph by evening.

Chance of cloud-free hill tops above 800m: 80% decreasing 30% during the evening.

Low cloud and visibility: Very good visibility for much of the day with patchy cloud cover about 800m. Poor visibility as rain edges in late in the day with clouds becoming extensive, bases lowering to 700m.

Temperature: **Valleys:** Plus 5 Celsius rising to 20 Celsius.
At 800m: Plus 9 Celsius.
Freezing level: Staying well above the tops.
